SERGEI RIABOV

Senior DevOps/SRE engineer

Hi all! My name is Sergey Ryabov, and I am engineer with near 7 years of expirience of ensuring the reliability of web services, as well as implementing and supporting processes in software development. I have had the opportunity to work in large companies and for the past four years I have led teams of engineers and was responsible for the performance and availability of high-load services.

What Sets Me Apart:

- Leadership in SRE and DevOps: I've been leading teams that focus on keeping websites and systems working well.

- Handling Big Challenges: I'm used to dealing with the tech side of big companies.

- Smart Problem Solver: I like solving puzzles, especially when it comes to making technology work better. I make sure that the solutions I come up with not only fix the immediate problem but also help the business do better overall.

- Always Learning: The tech world is always changing, and I'm committed to staying on top of the latest trends and tools. This way, I can bring the best and newest ideas to the teams I work with.

PROFESSIONAL EXPERIENCE

Brand Designer, InterAfrica Group / Lagos, Nigeria
2021

- Developed excellent brand ideas, strategies, and growth initiatives, effectively serving at least two clients per day and increasing ROI by 10%.

- Demonstrated remarkable communication skills by sharing the development and messaging of the brand narrative.

- Designed, managed, and upgraded the company website, operating systems, memory, and software.

- Designed and communicated the brand's personality by staying current on market trends and competitive activity.

Team Support, Plotaverse / Santa Barbara, California, USA
2017 - 2018

- Created and produced digital assets, including promotional videos, app reviews, and onboarding videos.

- Managed and maintained social media posts, social media accounts, and all creative content.

- Edited the 2018 Grammy Awards animated social media content with the team.

- Worked with the development team to diagnose problems with software to improve features, customer user relations, and user experience.
